RAILROADS NEED CO OPERATION.

Development Work Being Halted or Account of Inadequate Facilities,

The fact that the railroads are fall ing behind the needs of the country was pointed out recently in a most im pressive way by Mr. Howard Ellion president of the New York, New Haven and Hartford lines, in an address before the Railway Development association, who said in part:

"The development work today in which you and all others in the United States are interested in being halted because the plants of the railreads cannot produce enough transportation for the needs of the people, The same thing is true of many other manufacturing and industrial plants In these cases, however, the country does not condemn the manufacturer. but, on the contrary, its policy has been to help them so that they may increase their plans and increase their productivity.

"Unfortunately, the same policy has not been pursued toward transports tion business, and now these plants, as I have already stated, are not large enough to manufacture day by day the safe and adequate transportation that is so necessary for all other forms of business. Ratiroad owners and railroad managers have made errors, and unfortunately these errors. have been magnified by those who either cannot, or do not, see that the repressive and depressing policy of the last ten years towards the transpartation business could have but one effect in the long run, namely, that et stunting its growth.

Some of us in the business have tried hard to make this clear, and, for our pains, have been called calattiity however and pessinters. Instead, what we have been trying to do was to have a reasonable margin in the picks at the nose, starts in the sleep in the mouth of August amounted to and grinds the teeth while sleeping. \$256,177.12, according to the August plants could be added to constantly for these parasites will be found in

So, to goods will be sold, some of the larger polls and vote, they may be taught day, the country is face-to-face with stores have provided special features a lesson that will last them for at inadequate facilities, and there should for the opening and there will be least two years or until such time

> The above is the gist of an oration delivered by an old-time democrat to a crowd on the street yesterday af. man of the central committee and the ternoon when local politics were being discussed, and where there were conservative ones could but admit nothing left them but silence for man, 4,718; Pottle, 682. This indithat he was telling a lot of truth.

The primary election usually brings out the entire vote of the parthe general elections has fallen woefully short of the strength. A determined effort will be made this fall choose to stand. to overcome this and every precinc will be organized to get out the full vote at the coming election.

There seems to be more interest aken this year in the general election than ever before, and the chairman of the county central committee feels confident that the rank and file of democracy will do their full duty on election day. However, no chances will be taken and every precinct committeeman has been especially charged to get a poll of his precinct and then see that every voter casts his ballot. This is not a very hard task and if each man will take a littile time the whole business can be done and the biggest democratic majority ever recorded in the county will be the result.

From the interest now being maniested their is little doubt but that very democratic nominee will be

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert vigorous and vivacious a good clear skin; a nat ural, rosy complexions and freedom from filiness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic looking men, wemen and girls with pasty or muddy complextons, instead of the multitudes of 'nerve wrecks," "rundowns," "brain rage" and possitnists we should see a virile, optimistic turong of resy checked people everywhere.

An Inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stemach, liver, kidneys and ten yards of bowels the preyour day's indigestible waste, your fermentations and poisons, time cleansing, awastening and freshening the entire alimentary canal before parting more food into the stomark

Those subject to sten headache, bil icustiess, nasty breath, theumatism, colde; and particularly those who save a pailed sallow complexions and who are constipated very often, are urged to obtain a quarter pound of timestone phosphate at the drug store which will cost but a triffe, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not ansorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

Give Chesterfields a trial. We believe you will be glad to learn what they can teach you about cigarette enjoyment.
